PREFACE

Astrology is an ancient science, where the hidden answers are brought to light by using different principles and combination of planets. Great Indian astrologers have refined the principles in so many ways and have brought many new methods of predicting. Human brain is like a wonderful computer which throws light on so many new things when we go through the writings of great astrological seers of India.

This book is also a conception of my study of Naadi Astrology by Sage Brighu. The Naadi study made me creative in my thoughts because in **Brighu Naadi** the Ascendent (Lagna) is not taken into consideration. Starting from Aries (the head) to Pices (the feet) each sign has a different function and signification and the planets **Rahu** and **Kethu** are called as the family circle, or roads in front of the house in which the native took birth, etc. After going through this type of study, it occurred to me to gather all the combinations and place them in a format wherein it will be useful for all astrologers. In this method we can know the incidents which are supposed to happen or occur in a native's life without much calculations and with less usage of principles. With these combinations one can easily know the age of marriage, nature of profession, nature of parents, financial development of the native, age at which the native will purchase land or house, death of the parents, etc. and these above mentioned happenings can be known without much strain and calculation in a fraction of a second.

Hence, I am placing this wonderful piece of work for your kind reception. I am greatly indebted to Lord Ganesh for the blessing he has given me and my grandfather Sri. Venkataram Shastry, for the inspiration given to me in my struggle of completing this masterpiece. This work is only my effort of decoding the mystery of the planets and its movements by searching the subjects of “Brighu Naadi”.

Hoping this wonderful work will help the astrologers as well as readers of astrology to a great extent.

INTRODUCTION

Great Indian Astrologers after years of experience and research have come out with certain combinations of planetary positions. The permutations and combinations of these planetary positions have no limit. However, a broad outline is given in reference to a few important combinations given by ancient Hindu Astrological Seers.

The Hindu Astrologers have classified planets as benefic and malefic and divided the 12 houses starting from the ascendent into the following groups:-

1. Trine: 1,5, and 9 Best at their position
2. Quadrants: 1,4,7 and 10 Good in their disposition
3. Tricks: 6, 8, and 12 Bad in their disposition

The remaining houses 2, 3, and 11 are not so good. The interaction between good, best and not so good house planets will yield good results. But, the interaction between tricks, good, best, and not so good houses, will not only lessen the good result, but, gives bad results. In Naadi system of prediction sage Brighu has not concentrated on Ascendent (Lagna) on the other hand concentrates on Jupiter calling it a life force. Hence, the author treats Jupiter as the ascendent and the 12 houses/bhavas therefrom. The above said trine, quadrants, tricks, are also from the house/sign where Jupiter is posited.

After going through old writings of Sage Brighu the author has brought some yogas which can be seen and predicted without any calculation or tracing the ascendants. Before going through the combinations a few things have to be carefully borne in mind like, planets, enemies camp, **exhalation, debilitation**, signs signifying forest, signs signifying vegetation, fortune, intellectual etc. Before the study of planetary combinations, the below mentioned planets and significations are important.

Sun - For father and promotion in services.

Moon - For mother and foreign travel

Mars - For brothers / position in male horoscopes. Indication of marriage/husband in case of female horoscope.

Mercury- For education and intelligence.

Jupiter - Is said to be the life force.

Venus - About wife in male's horoscope and money / children in general

Saturn - For professions and problems.

Rahu & Kethu - For family circle, family/problems/death/roads, beginning or end of a job / change of place.

Taurus is a sign of fortune, Gemini is the sign of intelligence, Leo for capital city/Govt. Headquarters, Scorpio is an introvert sign, Sagittarius is the sign of forest, Virgo is the sign of vegetation. Jupiter is the life force and Saturn is action (Karma) so the importance is given to these two planets. Other planets like Mars, Venus, Mercury, tells about children, marriage, developments in life when touched by Jupiter while in transit among the 12 houses/bhavas. Jupiter's adjacent houses and 7th houses tells number of brothers and

sisters. Rahu and Kethu - shows about the family circle. Rahu and Kethu also tells about the lane or roads in front of the house in which the native is born. Rahu, also tells about the windy complaints and Mars tells about boils, wounds and accidents. Rahu's placement shows the part of the city in which the native is born (East/West/South/North part of the city) because Rahu is said to be the mouth or the entrance. In Jupiter's 6th round when Jupiter touches Kethu, death of the native is denoted. Jupiter retrograde in a birth chart says that the life of the native will develop in a different place other than his home town or birth place. Saturn retrograde in a birth chart says that the native will have a good development in profession and good income in other places other than his home town. In a female horoscope when Mars contacts Rahu or Saturn before touching Venus marriage will be delayed. Jupiter in his 3rd round when he touches the 3rd house lord or the planet in the 3rd house from Jupiter in the birth chart, the native will face lot of problems. This effect will be worse when the 3rd house lord or the 3rd house has a malefic in it, but when Sun aspects the 3rd house the effect is reduced to a maximum extent. In a males horoscope the sign in which Venus is placed shows the direction from where the wife of the native would be coming and in female's horoscope the placement of Mars shows the direction from which the husband is going to come. The planets in the 7th house to Jupiter tells about the natives friends and when Jupiter in his rounds of transit touches Sun or is in the 7* house to Sun the native will be getting good name and fame. Though the above said for only introduction part of the subject, the same is given in length in the following pages.

Principles of Naadi

According to Sage Brighu the significations of planets are a little different than the usual. In Naadi, Sage Brighu has not concentrated on Ascendant but, concentrates on each planets placement very closely. Each planet when placed in different signs/houses reflects different dimensions of the qualities, for e.g., Mercury in Gemini says law and also a trader, Saturn in Virgo (Mercury's house) says business, Mars in Gemini says writer or printing etc.

In Naadi Jupiter which is considered as life force takes 1 year to travel from one sign to another, and while in transit Jupiter will touch all the other planets like Sun, Moon, Mars, Mercury, etc., so, when the so called life force touches other planets, the life of an individual would experience the qualities of that planet which is in touch with Jupiter. For example, when Jupiter touches Venus in his rounds of transit it shows that the native will get money - as Venus is significator of money or when Jupiter touches Sun, you can be sure that the native will earn good name and fame. The above said principles can be utilised in prediction, but, with reference to bhavas which is counted from Jupiter. Jupiter in his first round of transit among the 12 houses when touches Kethu that is the year of danger for the individual, see for the number of houses between Jupiter and Kethu and you can know the particular year, the danger is foreseen. This is the way for calculating timing of events. The number of signs in between Jupiter and the particular significator is the number of years of fruitification of the object. The first round of

Jupiter's transit is for the development of the individual the 2nd round of Jupiter's transit is for family and financial. The 3rd round of Jupiter's transit is for traveling and development of brothers/sisters. In the 4th round of Jupiter's transit development of house/landed property is denoted. The 5th round of Jupiter's transit is for children and their developments or fall back. The 6th round of the Jupiter, tells the dangers to the native himself.

Saturn is also an important point in Naadi system of Astrology. Saturn is the planet, which takes two and half years to move from one sign to another sign and takes 30 years to complete one rotation of all the 12 houses. Just like Jupiter's transit even Saturn's transit in the 12 houses/bhavas will give results pertaining to karma/action. Here, in Naadi system of astrology Saturn signifies profession, problems or death. When Saturn touches/sees Rahu in his 1st round of transit, that is the age of beginning of the profession/business for the individual. The age of profession/business is known by the number of signs between Saturn and Rahu or at times Venus, the time taken by Saturn to reach Rahu in the birth chart is the age of profession (count the number of signs and multiply by 2½ that is the age of profession / business). In the same manner, Saturn's 1st round of transit is for development/business/ profession of the individual. In the 2nd round of Saturn's transit it tells about family members problems or death. In the 3rd round of transit Saturn's transit it tells about the death of the native. Saturn touches/sees Sun's 8th house planets / 8th house, death of the father is denoted, when Saturn touches/sees Moon's 8th house planets / 8th house, death of the mother is denoted, Saturn touches Mar's 8th house planet / 8th house, death of the brother is

denoted in male's horoscope and death of the husband in females horoscope. Saturn touches Jupiter's 8th house or 8th house planet denotes death of the native. Saturn's first round among the 12 houses tells about profession. Saturn's 2nd round among the 12 houses tells about achievements. Saturn's 3rd round among the 12 houses tells about death of the native.

Thus, to study the planets more closely readers are provided **with** the significations of signs and planets which is applicable in decoding the native's **birthchart** in the following pages.

Case Study of an Horoscope

			Mars
Kethu			
			Rah Asc
Jup. Sat.		Moon Ven	Sun Mer

The native of this horoscope is born in a village, this can be known by Jupiter and Saturn in Sagittarius (forest sign). Rahu and Kethu in Leo and Aquarius shows that the road in front of the house in which the native was born was running from East to West. Sun in Virgo is with Mercury and has Mars in the 10th house to Sun, this shows that the native's father was a priest and was learned in mantras (Jupiter aspects Mars in Gemini). Sun has 2 female planets in the 2nd house to Sun, this shows that the native's father had two wives. Mars staying outside the Rahu Kethu circle, tells that the native's brother is the step brother. Sun has Saturn in his 4th house Saturn and Jupiter which says that the native's father had a lot of problems in maintaining the family. Jupiter in Sagittarius says that the native had dual mentalities. The native suffered ill-health at the age of 2-3, as Kethu was in 3rd house to Jupiter. Venus with Moon (8th house lord) says that the native escaped drowning in waters at the age of 8. The native lost

his grand father when he was 20 years old, when Saturn touched 10th house from Moon. The native got the job when he was 21 years old. This happened when Saturn touched Rahu in Leo at the age of 21. Jupiter with Saturn aspected by Mars from 7th house, shows that the job was a typing job in a Bank. The native gets married at the age of 22 when Jupiter in his second round touches Venus in Libra. The native has his first child at 24 when Jupiter's 5th house lord will aspect Jupiter from Gemini. The native had his 2nd child at the age of 31 when Jupiter touched Mars (the 5th house lord from Jupiter) in Gemini. The native lost his father at the age of 31 when Saturn aspects Sun's 8th house lord in his 2nd round of transit. The native resigned the first job at 43 when Saturn aspects Rahu in Leo (birth chart) from Gemini. Ketu was in 3rd house to Saturn, shows that the native was also an astrologer, so, he continued astrology after resignation of Bank's job. When Saturn touched Mars in Gemini with Mercury in Virgo in 4th house to Mars, the native became a writer and started writing books.

So, the above said method is the way of knowing the incidents/ timing of events after referring to the combinations and other significations.

Important Note

Readers are provided with enough information in the previous pages for knowing the exact year of happenings, like, marriage, professions, accidents, etc., but, if readers want to be still precise of the time of happenings, please read the following few lines carefully. Observe the case study horoscope, where in Venus is in the 11th house from Jupiter and Jupiter is in Sagittarius. The author has said that the marriage of the native as per the above placements of planets was at the age of 22 years of the native, but if readers want to know the exact moment of this happening, they should know the Venus's star at the time of birth and when Jupiter touches the Venus's star in the 2nd round (i.e. at the age of 22 years of the native) then you can know that the marriage is going to take place. For profession, Saturn in Sagittarius (as referred in the case study horoscope) and Venus is in Libra. Saturn in his first round of transit touches Venus at the age of 21 years, so the native entered into his profession at the age of 21 years. This is the method of knowing the exact moment of happenings.
